Node JS/AngularJS  
React/ React Native  
Python, R  
Java, AndroidStudio  
MongoDB/MySQL  
Git/Github

## LANGUAGES.

English  
French  
Spanish  
German

## PROJECTS.

### Startups:

#### Distans:

video-chat and chat platform between patients and psychologists. Development of a Chatbot to help orient patients to the right psychologist. Last round for 3 different contests, launch in February 2017.

#### GetSmarterdUp:

online platform to help small projects meet and scale up together. Our algorithm takes into account project descriptions, founders' mentality, location and market to predict the possible outcomes of a fusion.

#### Letsport:

launched in 2014 as an app to help find people to do sport with. The community grew steadily until late 2015 when I accepted an offer to rent it to a University for their private use.

#### Freelance:

French « micro-entrepreneur » for the past 4 years. Projects ranging from programming (new projects or optimizing existing ones) to data analysis (for the Dakar port).

## EDUCATION.

2015 - Anticipated graduation 2019
